

ECOLOGICALLY SOUND SOLUTIONS TO PEST PROBLEMS

MOLE SCRAMTM

PROFESSIONAL

Designed & formulated for professional use:

- Pest Control Operators • Landscapers • Grounds & Greenskeepers
- All Landscape Installation & Maintenance Professionals

GRANULAR MOLE REPELLENT

DIRECTIONS FOR USE: Apply using a rotary spreader at a rate of **1 pound per 650 square feet**. Cover the entire areas where moles are present with a two phase application over a 2 week period. The initial application will drive moles out of affected areas and the second application will ensure they do not return for up to 45 days. **DAY 1:** Apply **Mole ScramTM Professional** to the entire affected area of lawn starting at the area furthest from where you want the moles to exit, then water for approx. 20 minutes. Where the area permits, apply Mole Scram Pro in a band at least 30 feet beyond & around the infested area where tunnels and holes are present. **DAY 14:** Apply Mole Scram Pro over the entire affected lawn, watering in the same way. *Where possible*, locate mole runways, then punch 1" holes every 10 feet and drop granules into the holes & cover with soil. Also apply to the end of each runway. **SEE FULL APPLICATION INSTRUCTIONS INSIDE.**

PRECAUTIONARY STATEMENTS: Wash skin after use. Avoid contact with eyes or cuts. If in eyes, flush with water 15-20 mins. *Call Poison Center or doctor for treatment.* **Storage:** Store in original sealed container. Store away from direct sunlight or excessive heat. Do not contaminate water by storage or disposal. Do not use on food or feed crops. Do not apply directly to water. **Disposal:** Do not reuse empty container. Dispose of properly. Buyer assumes all responsibility for safety and use not in accordance with directions. EPIC represents that this product qualifies for exemption from EPA registration under Section 25(b) of FIFRA and has not been registered by the EPA.
