

# stained-Glass Butterfly

## Supplies:

Black Cardstock

Multi-Colored Tissue Paper  
(cut into small strips / squares)

Glue Sticks

Scissors

1. You can use our butterfly templates to create your pattern or draw your own butterfly on the cardstock and use scissors to cut out the butterfly shapes.
2. Then glue the tissue paper pieces one by one to the back of the butterfly.
3. Remove the butterfly from your working surface in between gluing pieces to make sure it doesn't stick to the table.
4. Let dry, and trim the excess paper from the edges.
